This mission directive states the mission and establishes the responsibilities for Air Force Reserve Command (AFRC) logistics support squadrons/flight (LSS/LSF).

1. Mission:

1.1. Peacetime. The primary mission of the logistics support squadron is to provide plans, programs, and administrative support and training management for aircraft maintenance. Plans, schedules, and controls all maintenance accomplished on aircraft and associated equipment. Directs the procurement of commodities, services, and construction for support of the installation or other supported activities. Provides transportation, supply, equipment, maintenance analysis, and fuel support to the wing/group mission and installation operations. Provides unit administrative service for all assigned/attached personnel, the logistics group commander, and staff.

1.2. Wartime Emergencies. Governed by gaining command directives upon mobilization.

2. Command. LSS/LSF are assigned to AFRC logistics groups. Their peacetime structure design maintains effective operations with the least expenditure of resources and minimizes organizational turbulence upon wartime mobilization.

3. Assigned Forces. While in peacetime status and during 2 weeks of annual training, the LSS/LSF is under the direct control and supervision of the group to which assigned. Under Presidential call-up pursuant to Title 10 U.S.C. 12304, administrative jurisdiction remains unchanged. Operational control transfers to the commander of the gaining command. Under mobilization authority, command jurisdiction transfers to the commander of the unit to which assigned by the gaining command.

4. Relationship to Other Units. Established command channels apply. Communicate directly with the active duty advisory unit/active duty advisors on matters relating to training, inspection, and safety. Send a copy of such correspondence to the respective unit to which assigned.

DAVID S. SIBLEY, Brig Gen, USAFR
Assistant Vice Commander
